2. Terms of Reference (TOR)

Madhya Pradesh Tourism Board also referred to as the “MPTB” is a nodal agency under Department of Tourism, Government of Madhya Pradesh (“DoT”) with a mandate to Plan tourism infrastructure in the State of Madhya Pradesh.

The Organizations empaneled in MPTB participating in the bidding process of said project are also referred to as “Bidder”.

3. Proposed project: MPTB is requesting proposals from empaneled museum or similar projects expert firm for Preparation of Detailed Project Report along with Conceptualization, Designing & Supervision during execution of City Museum (Tourist Interpretation Centre / Citizen Engagement Centre) at Sadar Manzil in Bhopal.

4. Fees And Reimbursement

The Employer agree to pay the Bidder as remuneration for the professional services to be rendered by the relation to the said work as stipulated in Clause 7 here of, the said Fees being hereinafter called the “FEES”.

5. Scope Of Work

MPTB is issuing this Request for Proposal inviting expert and reputable firms empaneled with MPTB, with proven experience in conceptualizing, planning, designing, supervising execution of museums & similar projects at national or international level.

*City Museum (Tourist Interpretation Centre / Citizen Engagement Centre) at Sadar Manzil in Bhopal* should be interactive and apply contemporary concepts of museum making provision for audio guide etc.

The DPR of project is to be planned according to guidelines of “Museum Grant Scheme” of Ministry of Culture, Govt of India or any other suitable Central / State Government or any other funding agencies scheme as directed by MPTB. The follow up has also to be done after submission of DPR to concerned department / Ministry / Agency for funding. The required presentations, incorporation of suggestion provided by funding department / agencies will also be part of scope.

MP Tourism is planning for setting up *City Museum* (“Interpretation Center cum Citizen Engagement Centre”) at Sadar Manzil in Bhopal. *Interpretation centers are a new-style “Museum”*, often associated with visitor centers or eco-museums, designed to connect to cultural, historic or natural sites. Unlike traditional monuments or museums, interpretation centers do not aim to collect, or study objects; they are specialized for communicating the significance and meaning of history, to educate and raise awareness, and conserve by different means of communication to enhance the understanding of heritage. These are built to aid and stimulate the discovery process and the visitor's intellectual and emotional connection to heritage, the main strategy tends to be user-friendly and interactive, and often use
scenography exhibitions and multimedia programs.

The concept of digitization is converting or representing something non-digital, like paper documents, microfilms, images, photographs, sounds etc. into a digital format which then can be used by a computing system for numerous possible reasons. It involves the application of digital tools (e.g., computers, databases and networks).

More specifically, the digitization of an Interpretation Center can be defined as a three-fold process: the incorporation of digital tools in the Interpretation Center’s work processes, the creation of digital versions of its objects and object-related information, and finally the creation of a presence on the Internet (and through other digital modes of communication such as Apps) that potentially might evolve into a full-scale digital equivalent of (if not a substitute for) the Interpretation Centre.

The contribution of digital technologies to the conservation and preservation of cultural heritage have been widely acknowledged and digitization is already influencing the very definition of a historical building. Digitization of collection material affects how our historical buildings are run or how they would be experienced by the public. The advantage of being able to administer, examine, analyse, transport and exhibit the relevant objects without having their access, move, expose or endanger them, is perhaps one of the great advantages that technology has given to the historical sector. However, going digital is not about installing a mobile App for a service or product, or about digitizing a collection at a centre. It is an end-to-end process that looks at the entire relationship with your audience.

It is an innovative style of tourist interpretation Centre in which: -

- Diverse means of communicative technology will be used to enhance the understanding of History, Heritage, Culture, Traditions, Weddings, Handicrafts, eateries of Madhya Pradesh.
- It will help and excite as a must-visit place amongst the tourists and visitors which will both connect intellectually and emotionally with the legacy of Madhya Pradesh.
- A one stop tourist information center of Bhopal which summarizes the complete bucket of to-do list for the city.
- This multi-purpose engagement center will showcase the future development of city under smart city mission. Citizen can come and witness the futuristic smart city.
- Suggestive HR Plan for Operation of Museum.

1. Following interventions are being proposed in the said Museum: (Tentative)

Around 15-20 Galleries, Zones and content

A. Outside Sadar Manzil Bhopal: Facade.
   Projection mapping shows at the facade showcasing Bhopal's Culture & Heritage.

B. Inside the Sadar Manzil: Gallery Plan: Galleries containing different components & technological Interventions.

Note: The above scope is Indicative only. the consultant can add or change it as per their ideas & include in DPR, subject to approval from MPTB.

The CADD drawings of Sadar Manzil
are attached with this document for conceptualization of Museum & for preparation of Presentation.

6. **Deliverables**

   Under this assignment, for the **City Museum (Tourist Interpretation Centre / Citizen Engagement Centre) at Sadar Manzil in Bhopal** consultancy is expected to carry out these activities.

   **Part-A**
   
   i. **Prepare a Detailed Project Report (DPR)** - Carry out background studies and assessments to inform the Museum's content and design. Preparation of DPR in consultation with MPTB.

   ii. **Preparation of Detailed Estimates & Detailed drawings** Including all relevant architectural and engineering specifications as well as management plan for the Museum.

   iii. **Follow up with funding Ministry/Department/Agency, making presentations & when required, incorporation of suggestion provided by funding agency & submission of final DPR.**

   **Part-B**

   i). **Supervise the execution of the proposed works** for quality assurance and adherence to DPR. Preparation of tender documents, detailed working drawing, biddable documents, timeline with PERT Chart for execution of work on site by contractor.

6.1 **Part-A : Preparation of DPR**

   (i) **Historical/Cultural research.** The consultancy will examine historical events, cultural ethos and expressions amongst other relevant aspects in order to inform the overall conceptualization and subsequent preparation of the DPR. The research should also inform the approach for the definition of statement of purpose and content display.

   Output: Initial conceptual framework and approach for the network of venues based on the area’s history, living heritage and its defining elements and evolution.

   (ii) **Detailed mapping and documentation of existing conditions of each site/building** as a baseline for the work. This will entail:

   a. **Sourcing Information**
      Obtain existing master plans, land use drawings, building codes and urban design guidelines from appropriate government agencies, as required

   b. **Surveys**
      1. **Building and Site Conditions:** Total station survey of the site and building
      2. **Socio-Economic and Environmental Mapping:** Mapping of the living, economic and social activities in the surroundings of the areas of intervention, which may influence the architectural and interpretative proposals.
      3. **Surroundings Condition Assessment:** Detailed condition assessment of the roads, adjacent built structures and street facades, open spaces and natural
features, infrastructure, services and amenities etc., in main intervention areas.

4. **Output**: Detailed profile of buildings and sites with surroundings along with drawings (if required).

c. **Content development and exhibition plan for the Museum/ Interpretation Centre**: The consultancy will be responsible for proposing the overall interpretative and exhibition concept and any other soft aspects aimed at sustainable management and maintenance of the Venues. The multiple functions of heritage interpretation and exhibition making (i.e., curation, design, fabrication, production, installation, maintenance) may be considered accordingly.

   The consultancy will have to show the concept along with 3D tours of proposed components of project.

(iv) **Stakeholder consultations**. Based on the previous activities, the consultancy will map and identify key stakeholders and communities, including those likely to influence, contribute (i.e., co-finance, co-manage, advise, etc.) or be affected by the proposed interventions, their suggestions, insights and concerns. The consultancy will ensure that all stakeholder mapping and consultations both take a gender-sensitive approach and consider the views/needs of project.

(v) **Preparation of detailed design, drawings and estimates of final components to be included in DPR before submission**. Detailed Cost Estimates including detailed specifications for all the proposed works and activities. The capital and operational costs should be estimated based on the project specifications.

6.2 Part-B : Preparation of tender documents & Detailed working drawings and supervision (Post sanctioned and budgetary allocation of project):

(i) **Preparation of BoQ and Tender Documents**. The tender documents will be prepared as per Government of Madhya Pradesh Standard Procurement Manual; along with tender specifications, tender drawings, and bill of quantities (BOQ) etc. It will include timeframe, responsible agencies, monitorable schedule of implementation and indicators per chart and management plan covering all stages of the implementation process to ensure coordination and minimization of disruption for the general public; IEC and capacity building components; training requirements; and community participation.

(ii) **Supervision and Quality Control**: To ensure the contractor follows the proposed and approved designs and concepts, the consultancy will supervise the implementation of the works and activities.

   Output: Regular field observation checklists, including recommended improvements/modifications if necessary.

6.4 **Main Deliverables**
(i) Conceptual framework for the network of interpretative and cultural venue based upon and including a report on the findings and documentation from desk reviews, reconnaissance assessments, physical, social, cultural and ecological profiles of each building/site as well as complete social and environmental screening and analysis (*Within 4 weeks of contract signature*)

(ii) Draft DPR including preliminary design approach, 3 D virtual tours site plans and micro detailing of any architectural, engineering drawings and of soft components; EMP/RAP/GAP as required; cost estimates and an O&M and execution action plan for all investments (*Within 8 weeks of contract signature*)

(iii) Final DPR incorporating all comments from major stakeholders and detailed design, estimate, drawings, Specifications, etc. (*Within 12 weeks of contract signature*). The DPR should include, inter alia:

(a) Buildings Design and Space Planning — the description of the scope of work for each building/site.
(b) Spatial elements that will be added, where, why and, operationally, what is required to maintain anything proposed. It should present interpretive possibility located both indoor and outside.
(c) Content Approach and Visualizations — a concept-level review of what content will be provided in the Museum. This approach should ideally be vetted by scholars.
(d) A written description of what the visitor can see and do at each venue and what will be provisioned, in terms of interpretive design tools, to further visitor appreciation. This should explain how the Museum will engage the visitors in a learning journey.
(e) Operations Planning — staffing requirements, up-keep costs, and plans for economic self-sustainability, in addition to other considerations that all cultural institutions must make as they self-analyze the ‘business case’ for their existence.
(f) Implementation Overview — detailing how the overall project can be implemented, on-time and budget.
(g) Detailed design, drawings, estimates.
(h) 3D tour of proposed Museum.
(i) Follow up with funding agencies, making presentations as required & incorporation suggestions in DPR till funding.
